Purpose: To improve the reliability of connections to meters.

STEP 1

Use 1-inch wide duct tape cut into 4-inch lengths.

STEP 2

Place strips of tape over both power connectors between wires for top meter secure tape to meter body top and bottom. Place tape over single connector of the middle meter and secure to meter body top and bottom

STEP 3

Secure the 3 inline connectors of the top and middle meter in the same manner as power connectors

STEP 4

Secure Omega meter connectors by taping across both connectors and affixing tape to meter sides
